# JUAN MANUEL SUASNÁBAR

Information Management, Data Visualization & Analytical Solutions Specialist

Tandil, Argentina · juansuas@gmail.com · Portfolio · LinkedIn

## PROFESSIONAL PROFILE

Educational researcher, university lecturer and consultant specializing in information management, data analysis and visualization. Has worked with UNESCO, IIEP-UNESCO, the Inter-American Development Bank, OEI, universities and public institutions in Latin America. Combines educational research and methodological design with end-to-end analytical solutions: data integration, modeling, dashboards, web applications, geospatial visualization and reporting.

## CORE AREAS & TECHNOLOGIES

◆ **Data & information systems:** Data integration, cleaning and modeling; administrative records, education management information systems, APIs and reporting workflows.

◆ **Visualization & digital products:** Interactive dashboards, data interfaces and web applications; Power BI, Looker Studio, HTML, CSS, JavaScript and Google Apps Script.

◆ **Analytics & research methods:** Python, SQL, R and SPSS; surveys, indicator design, statistical analysis, text mining and natural language processing.

◆ **Geospatial & learning analytics:** QGIS, spatial analysis, geomarketing, Moodle learning analytics and educational monitoring.

## SELECTED DATA & VISUALIZATION WORK

**Regional SDG 4 Monitor** | UNESCO Santiago · 2026

Optimized the interface and navigation of regional education-monitoring dashboards, including their presentation across screen sizes.

**SITEAL — Latin American Education Indicators** | IIEP-UNESCO · 2023

Designed and implemented a Power BI interface for exploring and comparing education indicators across 19 Latin American and Caribbean countries.

**Learning Analytics** | IIEP-UNESCO Paris · 2024–25

Developed Moodle-linked dashboards for the Monitoring, Evaluation and Learning team, integrating course and participation data.

**Student Voices / Open-ended Responses** | Argentina · 2024

Used Python text mining and NLP to analyze students' open-ended answers and support analytical reports and visualizations.

**Chubut 2050 — Territorial Scenarios** | Argentina · web demo

Developed an interactive web demonstration for exploring demographic, educational and territorial planning scenarios.

**Geospatial & Commercial Analysis** | Tandil · 2023

Developed a dashboard combining commercial, sociodemographic and geospatial information for territorial decision-making.

**Explore work online:** Portfolio · SITEAL · ODS 4 Monitor

# EXPERIENCE

Selected consulting and applied research engagements

## INFORMATION SYSTEMS, POLICY & INSTITUTIONAL ANALYTICS

**Integrated education information systems** | OEI / Ministry of Education, Ecuador · 2024–26

Assessed information systems to inform a unified education management module and the conceptual design of a student-level early warning system.

**Early warning systems for student trajectories** | OEI / CAF · 2024

Developed proof-of-concept dashboards for educational monitoring by intermediate management teams in La Pampa and Córdoba.

**Education data governance and regulation** | OEI Argentina · 2023

Analyzed legal frameworks governing education statistics, data protection and access to public information across jurisdictions.

## RESEARCH, EVALUATION & ANALYTICAL REPORTING

**National Aprender assessments** | OEI / Argentina Secretariat of Education · 2024–25

Processed assessment data, applied statistical and text analysis, and contributed to national reports and research outputs.

**Attendance and educational trajectories** | Inter-American Development Bank · 2025

Conducted analytical and policy work on attendance and measures to support educational trajectories in Latin America.

**Professionalizing practices in technical education** | UNIPE / IDB · 2026

Participated in a consulting team supporting the institutional development of work-based learning practices in technical education.

**Technical and vocational education in Chubut** | Consejo Federal de Inversiones · 2024–25

Analyzed statistical, regulatory and institutional evidence and contributed to a provincial diagnostic study and recommendations.

## ADDITIONAL DATA PRODUCTS & CONSULTING

**Digital technologies and educational planning** | IIEP-UNESCO Buenos Aires · 2023

Developed a regional analytical tool and visualizations of indicators and qualitative policy information.

**Global Hub analytical dashboards** | IIEP-UNESCO Buenos Aires · 2024

Developed dashboards for communities of practice and specialist networks.

**Automated reporting and technical training** | OEI / Argentina Secretariat of Education · 2025

Built automated reporting products and trained technical teams in data processing and analytics.

**Big Data and AI for education planning** | Inter-American Development Bank · 2022

Analyzed opportunities and limitations of Big Data and AI for educational planning, contributing technical research and papers.

# RESEARCH, TEACHING & EDUCATION

Academic experience and selected publications

## CURRENT ACADEMIC APPOINTMENTS

**Associate Professor (Profesor Adjunto Interino)** | UNICEN · Faculty of Human Sciences · 2024–present

Educational Policy area; full-time appointment since September 2025. Teaching in educational policy and training in research methods and information sources.

**Coordinator, Educational and Social Observatory** | UNIPE · 2025–present

Coordinates the Universidad Pedagógica Nacional's Observatory, focused on education indicators, inequality and evidence for public debate.

## TEACHING & KNOWLEDGE SHARING

**Four Sources in Search of a Researcher** | Educational research teaching resource

Developed a teaching microsite and activities exploring statistical, administrative and other sources for educational research.

Teaching microsite

**Technical team training** | OEI / Argentina Secretariat of Education · 2025

Delivered training on data processing, analytical tools and automated reporting.

## RESEARCH & ACADEMIC AFFILIATIONS

Researcher in the History, Policy and Education programme, NEES / UNICEN; collaborator with FLACSO's research network on elites and educational inequalities. Research on education policy, trajectories, inequality and data-informed planning.

## EDUCATION

- Master in Big Data and Data Visualization — TECH Universidad Tecnológica (2023).
- Master's studies in Artificial Intelligence and Knowledge Engineering — TECH Universidad Tecnológica (in progress; expected completion 2027).
- Postgraduate Specialization in Social Sciences, Psychoanalysis and Socio-Educational Practices — FLACSO Argentina (2017).
- Licentiate and Teaching degrees in Education Sciences — UNICEN (2010 and 2008).

## SELECTED PUBLICATIONS & TECHNICAL PAPERS

- Dávalos, P., Pasin, J., González, D., Suasnábar, J., & Estrada, G. (2025). Trabajo adolescente y trayectorias educativas en tensión. Cuestión Urbana, (16).
- Morduchowicz, A., & Suasnábar, J. (2023). El planeamiento educativo en la era de la big data. IDB Discussion Paper IDB-DP-01038.
- Suasnábar, J., & Valencia, D. (2024). Hacia el fortalecimiento de un Sistema Nacional de Información Educativa en clave nominalizada. OEI.
- Suasnábar, J., & Valencia, D. (2022). El uso de información estadística gubernamental para caracterizar desigualdades sociales y educativas en los territorios. Propuesta Educativa, 31(57), 58–74.
