JUAN MANUEL SUASNÁBAR

Information Management, Data Visualization & Analytical Solutions

Tandil, Argentina · juansuas@gmail.com · LinkedIn · GitHub

PROFESSIONAL PROFILE

Educational researcher, university lecturer and consultant working across information management, data analytics and visualization. Experience with UNESCO, IIEP-UNESCO, the Inter-American Development Bank (IDB), OEI, universities and public institutions in Latin America. Combines methodological design and institutional knowledge with the development of data products—from integration and analysis to interactive dashboards, web applications, geospatial visualization and technical reporting.

CORE AREAS & TECHNOLOGIES

◆ **Data & information systems:** Data integration, cleaning and modeling; administrative records; educational management information systems; APIs and reporting workflows.

◆ **Visualization & digital products:** Interactive dashboards, web applications and reporting interfaces; Power BI, Looker Studio, HTML, CSS, JavaScript and Google Apps Script.

◆ **Analytics & research methods:** Python, SQL, R and SPSS; surveys, indicator design, text mining, NLP and applied research.

◆ **Geospatial & learning analytics:** QGIS, spatial data, geomarketing, Moodle learning analytics and educational monitoring.

SELECTED DATA & VISUALIZATION WORK

SITEAL — Regional Education Indicators | IIEP-UNESCO · 2023

Redesigned and implemented the regional indicator interface, enabling comparison and exploration of educational data across 19 Latin American and Caribbean countries, including mobile layouts.

Learning Analytics | IIEP-UNESCO Paris · 2024–25

Developed Moodle-related analytical dashboards for monitoring participation, learning activities and training outcomes for the Monitoring, Evaluation and Learning team.

Student Voices / Open-ended Responses | Argentina · 2023–25

Processed and analyzed students' open-ended responses using Python-based text mining and natural language processing; contributed to analytical reporting and visual exploration.

Territorial & Commercial Geomarketing | Tandil · 2023

Developed an online dashboard integrating sociodemographic, commercial and geospatial data for territorial analysis and local decision-making.

Online example: SITEAL

EXPERIENCE

Selected consulting and applied research engagements

INFORMATION SYSTEMS, POLICY & INSTITUTIONAL ANALYTICS

Integrated education information systems | OEI / Ministry of Education, Ecuador · 2024–26

Contributed to an assessment of Ministry of Education information systems to inform a unified education management module and the conceptual development of a student-level early warning system.

Early warning systems for student trajectories | OEI / CAF · 2024

Developed proof-of-concept dashboards supporting educational monitoring by intermediate-level management teams in La Pampa and Córdoba.

Education data governance & regulation | OEI Argentina · 2023

Analyzed legal frameworks on statistical information, personal data and public information across national and subnational jurisdictions.

RESEARCH, EVALUATION & ANALYTICAL REPORTING

National Aprender assessments | OEI / Argentina Secretariat of Education · 2024–25

Processed assessment datasets, conducted statistical and text analysis and contributed to reports and analytical outputs.

School attendance and educational trajectories | Inter-American Development Bank · 2025

Combined statistical analysis and policy review to examine attendance, student trajectories and public policy responses in Latin America.

Professionalizing practices in technical education | UNIPE / IDB · 2026

Member of the UNIPE consulting team on technical assistance to strengthen professionalizing practices in Argentina's technical and vocational education system.

Technical and vocational education in Chubut | Consejo Federal de Inversiones (CFI) · 2024–25

Analyzed statistical, regulatory and institutional information and contributed to reports and recommendations for strengthening technical education.

ADDITIONAL DATA PRODUCTS & CONSULTING

Digital technologies in educational planning | IIEP-UNESCO Buenos Aires · 2023

Developed a regional analytical tool and representations of quantitative indicators and qualitative digital education policies.

Global Hub analytical dashboards | IIEP-UNESCO Buenos Aires · 2024

Developed dashboards supporting access to information for communities of practice and specialist networks.

Automated reporting and capacity building | OEI / Argentina Secretariat of Education · 2025

Developed automated reports and trained technical teams in data transformation and reporting workflows.

Big Data and AI for education planning | Inter-American Development Bank · 2022

Researched uses and limitations of Big Data and AI for educational planning and management, contributing technical analysis and discussion papers.

RESEARCH, TEACHING & EDUCATION

Academic experience and selected publications

CURRENT ACADEMIC APPOINTMENTS

Associate Professor (Profesor Adjunto) | UNICEN · Faculty of Human Sciences · 2024–present

Educational Policy area; full-time appointment since September 2025. University teaching and methodological training in education policy, research and information sources.

Coordinator, Educational and Social Observatory | Universidad Pedagógica Nacional (UNIPE) · 2025–present

Coordinates an observatory focused on educational indicators, social inequalities and evidence for public debate.

TEACHING & KNOWLEDGE SHARING

Four Sources in Search of a Researcher | Educational research seminar and microsite

Teaching materials and activities examining administrative information, statistics and other sources used in educational research.

Teaching microsite

Technical team training | OEI / Argentina Secretariat of Education · 2025

Training in data processing, automation and analytical reporting tools for technical teams.

RESEARCH & ACADEMIC AFFILIATIONS

Researcher, History, Policy and Education programme, NEES / UNICEN; collaborator, FLACSO research network on elites and educational inequalities; contributor to studies of educational trajectories, inequalities and policies.

EDUCATION

- Master in Big Data and Data Visualization — TECH Universidad Tecnológica (completed 2023).
- Master's studies in Artificial Intelligence and Knowledge Engineering — TECH Universidad Tecnológica (in progress; expected 2027).
- Postgraduate Specialization in Social Sciences, Psychoanalysis and Socio-Educational Practices — FLACSO Argentina (2017).
- Licentiate degree and Teaching degree in Education Sciences — UNICEN (2010; 2008).
